

## TIPPMANN MONTHLY TIMES

NOV 1, 2007 - DEC 1, 2007

### FACTORY DIRECT:

Tippmann Industrial Products, Inc. the premier manufacturer of leather crafting equipment and accessories has gone factory direct on the sale of the BOSS Leather Hand Stitcher.

In a continuing effort to maintain the lowest prices in the industry, while offering a one of a kind machine, Tippmann has begun selling Boss Hand Stitchers, as well as their full line direct through phone and internet sales. Tippmann is always adding to its extensive line of leather crafting equipment and invites you to view all of our products on line at [www.tippmannindustrial.com](http://www.tippmannindustrial.com)

You can also request a color information packet which goes through the full line and includes a product demonstration DVD.

Tippmann, who has been operating in the leather crafting industry since 1991, has been selling through a network of dealers for the past several years. While the dealer network served a vital purpose of product exposure, the progression of internet capabilities along with the exposure of having thousands of machines on the market has given us the opportunity to sell manufacturer direct.

Tippmann is continuing to offer the same American made quality that it has since 1991 and we are working harder than ever to provide the finest in customer support and service. We look forward to the many new and exciting innovations in the leather crafting industry.

### REFERRAL BONUS PROGRAM:

As a bonus to reward existing customers, Tippmann is now offering a \$100 sales referral program to all current Tippmann machine owners.

For every referral which leads to a sale of a Boss, Embosser or Clicker, that owner will receive \$100. There is no limit to the amount of referrals you can submit.
